

# CME Planning Worksheet

## Linking Needs to Objectives to Outcomes

---

### Program Purpose

Describe briefly the **broad purpose or intent** of this program, in conjunction with other educational and organizational interventions, to change clinician practice and/or improve patient health status.

### Needs Assessment

*Why are you doing this program? What are the **gaps** in clinical or organizational practice you wish to address? List identified needs and how they were measured or determined.*

### Program Objectives

*What do you want clinicians to be able to **do** in their clinical or organizational practice as a result of this learning experience? List behavioral objectives linked to the identified needs.*

### Program Outcomes

*How will you know if your program **makes a difference** or helps change **clinician behavior** or **patient health status**? Describe how you will evaluate the program objectives and assess outcomes.*
